# LESSONS OF THE WAR

Washington, Aug. 31—Special—While the nations of Europe are discussing the proposal of the emperor of Russia for the disbandment of the armies of that continent, the officials in this city are discussing plans for a further improvement of the naval and military branches of the service. The recent war has demonstrated that the armored cruiser and the modern battleship are practically invulnerable, and are capable of inflicting great damage upon an enemy either on land or sea. Speed has been shown to be one of the chief requisites, and in this respect the American vessels clearly have an advantage over those of any other nation. The steering apparatus, enabling rapidity in the change of position, has also been found to be an efficient means of attaining success, both because it enables a vessel to present the least area of front to opposing gunners and because it gives the attacking squadron a chance to use either its broadsides or its pivot guns as may seem to be most desirable.

In the matter of armor nothing thus far produced can resist the impact of a heavy projectile fired from a large gun. The war vessel of the future will be no more protected by armor than that of the present. For most emergencies a six-inch plate is about as good as one double that thickness. It

will be the task of the future to design vessels that can escape being hit rather than to build those that can resist the impact of the modern projectile. This will be done by constructing low hulls rather than great floating fortresses that make a fine target for an enemy.

The age of the torpedo boat, if it ever had any, has gone. They were of no use whatever during the war, and in place of being a help have been a hindrance wherever they have been employed.

The art of gunnery will receive greater attention in the future than it has in the past. The signal victories of the American over the Spanish ships are due more to the superior skill of the American gunners than to the extraordinary excellence of our vessels or the greater power of our ordnance. At Manila and Santiago this fact was strikingly demonstrated, for there were few shots fired from our vessels that failed to do execution.

Fewer opportunities have presented of drawing lessons for the benefit of the army. The chief one is that means must be devised for the better equipment and provisioning of the soldiers in camp, and the selection of camps that shall be comparatively immune from contagious and malarial diseases.

War department officials are now discussing the expediency of establishing permanent military camps along the seaboard which shall be arranged in conformity to well known sanitary laws—camps that shall be thoroughly drained, remote from malarial swamps, provided with an abundance of pure water and pure air, and perfectly adapted for the sojourn of large bodies of men.

It has been proved that disease is more to be feared than assaults from an army, and therefore the medical corps will be looked after and an abundance of nurses, available at call, will be provided. The services of physicians rather than surgeons will be in greater request in the army of the future, although the latter will, in the nature of things, be demanded in the field. The former, however, will rule the camp.

The subsistence department will demand greater attention in the future than in the past. Complaint has arisen during the past few months that some of the camps were insufficiently provisioned, although the country was oversupplied with means of subsistence. The fault is due to a lack of apprehension of the wants of the army on the part of those charged with its subsistence.

### A Searching Inquiry.

Montauk, Aug. 31—Special—Gen. Ames, by order of Gen. Wheeler, is investigating Camp Wikoff, where it has been determined to sift from the opposing statements of interested parties the truth about the neglect of soldiers and place the responsibility where it belongs. The investigation is not ordered from Washington. It is understood the inquiry is to go back far enough to show who is responsible for placing the camp, and may even reach Santiago and the whole management of the transports.

### Montejo Makes Report.

Washington, Aug. 31—Special—A copy of Montejos report on his defeat at Manila has been received at the navy department. He says he owes his defeat to the superior strength of the American fleet, the lack of gunners, and the scarcity of rapid fire cannon. He also says the Americans fired most rapidly. He admits giving orders to sink his own ships after he saw defeat was inevitable.

### DEMOCRATS ARE IN CONVENTION

MEET AT MILWAUKEE TO NAME STATE TICKET.

Chairman O'Connor Makes a Speech in Which He Arraigns the Republican Administration for Dishonesty and Incompetency—State Central Committee—The Populist Sideshow

Milwaukee, Aug. 31—[Special]—The democratic state convention opened at noon in the Lyceum theatre. The auditorium had been handsomely decorated and it presented a pretty appearance. The national colors festooned the balustrades of the balconies. Groups of small flags hung over the electrolers. The chairman's desk was covered with the colors and in the center of it stood a magnificent bouquet of roses. A large flag was suspended over the center of the rear of the stage.

James L. O'Connor was chosen chairman of the convention. Mr. O'Connor spoke at length, attacking the republican party in a severe manner. He claimed that it was an administration of dishonesty, incompetency and guilt. He also made an appeal to the gold democrats, and begged them to stand together and defeat the republicans.

After the speech the convention adjourned until 5 o'clock.

The state central committee is as follows:

First District—George Ward, Darlington; William B. Vance, Racine. Second District—G. W. Sloane, Dodge county; Albert Geotz, Jefferson county.

Third District—E. A. Watkins, Grant county; J. L. R. McCallum, Richland county.

Fourth District—V. J. Schoenecker and Ignatz C. Zierwinski, Milwaukee.

Ninth District—D. J. Madagen, Marquette; Thomas J. Mathews, Merrill.

Tenth District—W. H. Stafford, Chippewa Falls; J. R. Mathews, Menominee.

While the democrats met in the Lyceum theatre, their populist friends had a convention of their own in less luxurious quarters. At 11:20 o'clock this morning Chairman Robert Schilling, of the Populist State Central committee, called the state convention of that party to order at Robert Chivas post hall. There were 75 or 100 delegates and workers in the party present when Col. Schilling convened the convence. A. A. Worsely, of Racine county, was elected chairman.

### ANOTHER SOLDIER DANGEROUSLY ILL

RALPH INMAN REPORTED IN BAD CONDITION.

A. E. Rich Left This Afternoon for Jacksonville to Look Into His Case—Captain Hanson Telegraphs the Bad News—Will Be Brought Back and Nursed Here.

A telegram arrived in the city this morning from Captain Hanson at Jacksonville notifying relatives of the dangerous illness of Ralph Inman. The sick volunteer is the son of Mr. and Mrs. Edward Inman, of Prospect avenue, and is well known throughout the city.

A. E. Rich, who resides at 407 Court street, left this afternoon for Jacksonville for the purpose of administering to his wants, and to remove him to this city if he is able to stand the journey.

Belonged to the Cadets.

Private Inman was a former member of the Christ Church Cadets, and is a young man who has taken much interest in military affairs. When the call for volunteers reached this city in the early spring he enlisted and was sent south with Company A. When the fever broke out he at first managed to escape, but as time wore on he was soon within its grasp and was obliged to admit that he was numbered with the sick. Of late he has been troubled with stomach complaint, and this with the fever that is lurking in him, has made his case one of a serious nature.

Mr. Rich prior to his departure this afternoon stated that if such a thing was possible he would return with the sick boy as the first opportunity and if he was unable to be removed he would see that he received the best of medical treatment while in the camp hospital. He expects to arrive in Jacksonville the latter part of this week and will then immediately telegraph local relatives the details.

Other Ailing Soldiers

Quartermaster Hill of Co. A, who arrived here the first of the week from Jacksonville, is able to be out and is greeting his many friends on the streets. He is weak as the result of the fever and has lost considerable flesh since leaving Jacksonville in the spring.

Private Ross King is now able to walk about, and will soon be himself again.

Private Sheldon is still confined to the house, and is liable to be for some time to come.

Relatives and friends in this city who have loved ones in the south sick with fever are thankful to Captain Hanson for the interest he has taken in the welfare of the boys since they have been at Jacksonville. He has kept all informed by telegraph of the true nature of their cases, when ill.

Jacksonville, Fla., Aug. 31—[Special]—Returned from hospitals. Private Balderson, Frank Coryell, Flint, Fladness and Cunningham. All the sick are doing nicely. No orders to move have been received.

Lowell is selling hardware.

BELOIT BOY STRUCK IT RICH

Was in the Northwest When the Gold Discoveries Were Made.

Beloit, Wis., Aug. 30—John W. Crist, of Dawson City, Alaska, an old Beloit boy, is visiting his sister, Mrs. E. C. Stone. He went to Alaska four years ago, and followed his trade of carpenter, keeping close touch with the gold finders, and has secured several paying claims which are being worked on shares. He confirms the stories of hardships, and says the tales of the fabulous wealth secured are great exaggerations. It is true, however, that some fortunes have been attained and many gold seekers have become well off. He does not advise men to go to Alaska unless they possess physical strength to endure much, considerable money and endless pluck. Even then many will fail to strike it rich. Mr. Crist will spend several months at home when he will return to look after his interests that are said to be valuable.

A New Dressing

We have just received an invoice of Yeath Club salad dressing, an article which we think is as good, if not better than any salad dressing on the market. It is put up by Reid, Murdoch & Co., of Chicago, and comes highly recommended. With each bottle we will give free for a limited time a forty-five page booklet on salads and salad dressings, exclusively, which in itself is worth the price we ask for the dressing. We think most ladies will bear us out in the statement that salads and salad dressings are the most unsatisfactory articles to prepare in the entire list of fancy dishes. This little book is full of good things for just this work, one free with each bottle of Yeath Club dressing at 25 cents. Sanborn & Co.

## NAMED FOR THE BADGER STATE

## THE WISCONSIN WILL BE A GREAT BATTLESHIP.

She Will Be Launched in November and Go Into Commission Next Year—Constructed Upon the Most Approved Designs, and Regarded as the Perfection of Her Class.

The battleship Wisconsin, now in process of construction in the shipyard of the Union Iron Works, San Francisco, is one of the three new battleships which will be practically alike. Her sister ships are the Alabama and Illinois. The dimensions of these ships are: Waterline length, 363 feet; beam, 72 feet 2 1/2 inches; draught, 23 feet 5 inches; freeboard forward, 20 feet; freeboard aft, 13 feet 3 inches; displacement 11,520 tons. The Wisconsin is eight feet longer than the Iowa, and nearly three inches wider, but she will draw six inches less water than that ship. She is twenty feet longer and about three feet broader than the battleships of the Indiana class; with six inches less mean draught.

The best features of the Indiana class, as well as those of the Kearsarge and Kentucky, have been improved on in the Wisconsin. The plan

followed in the construction of the Kearsarge and Kentucky, of putting the 8-inch guns in turrets superimposed on the turrets carrying the 13-inch guns, caused a great deal of adverse comment, the objections being based principally on the danger of having all four guns thrown out of service by one successful shot. The danger has been avoided in the Wisconsin by omitting the 8-inch gun from the armament, leaving the heavy turret unhampered, and greatly increasing the weight and efficiency of the secondary battery. Another improvement is the adding of an additional deck for the first three-quarters of the ship's length, giving the Wisconsin twenty feet of freeboard against the 13 feet 3 inches of the Kearsarge. The turrets of the Wisconsin are oval, with the front plates slightly inclined and the rear plates vertical. This gives more room for the handling of the guns and for their loading appliances and is much lighter.

The main battery of the Wisconsin will consist of four 13-inch breech-loading rifles, but the removal of the 8-inch guns and the upper turrets permit of the use of a secondary battery of fourteen 6-inch rifles instead of the sixteen 6-inch rifles in the batteries of the Kearsarge and Kentucky. In addition to the increase in weight, the battery will be more widely separated with more complete protection for the gunners.

The Wisconsin will be launched on the 26th of November and will go into commission some time next year. In obedience to a law enacted by the legislature of 1897, Gov. Scofield has appointed a committee consisting of Senator De Wayne Stebbins of Algoma, Dr. J. C. Reynolds, of Lake Geneva and Julius Bleyer, of Milwaukee, to raise a fund for the purchase of a gift for the ship, in behalf of the state. This committee is now soliciting subscriptions to the battleship fund, and it respectfully requests all contributors to send their money to the First National bank, Milwaukee, subject to its order. The committee expects that the people of Wisconsin will contribute at least \$5,000, as that amount will be required to do as handsomely for the Wisconsin as other states have done for the ships which have been named for them.

## POWDER MILL FOR WISCONSIN

Large Plant Will Be Removed from Iowa to Pleasant Prairie.

Kenosha, Wis., August 31—The Laflin & Rand Powder company has bought a tract of land containing more than 500 acres, near Pleasant Prairie and will remove its great plant at Platteville, Ia., to Kenosha. The land to be used for the factory is known as the Wells farm. It was sold to Eastern people, and was sold again to J. Emery Haskell of New York for the Laflin & Rand company. This company is the greatest manufacturer of explosives in the United States, and supplied a great deal of the powder used by the government. The company has eight factories and one of these is at Platteville. It is this factory that will be moved to Kenosha.

The plan is to remove the iron building from Platteville to the site in Pleasant Prairie. It is not thought that the entire tract of land will be needed, but the company wishes to control the surrounding land.

The mills turn out more than 2,000 kegs of powder daily, but it is thought that the output will be increased. The change will involve an expense of more than \$250,000.

The industry will be a boom to the village of Pleasant Prairie.

The company asks no bounds in coming to this county. The reasons for the change are the improved facilities over those in the old situation. Next month will see the beginning of the work, and the factory will be in full running order early in the spring.

## MERRITT ON HIS WAY HOME.

Will Proceed at Once to Peace Conference.

## AGUINALDO'S PROCLAMATION.

Insurgent Leader Shows a Disposition to Ignore the Authority of the United States—Anarchy Said to Prevail Around Manila.

Manila, Aug. 31.—The steamship China sailed Tuesday for Hongkong with Gen. Merritt and members of his staff—Mott, Hale and Strothers—and his secretary, Howell. They will proceed directly to Paris to assist in the work of the peace commission.

Gen. Greene and his staff are also on the China, as are Gen. Babcock and Maj. Sturgis. These officers will continue on board the vessel, and will be taken to San Francisco, whence they go immediately to Washington.

Aguinaldo has issued a proclamation to the powers asking recognition from them of the independence of the Philippines. In his proclamation he makes no mention whatever of the United States or of the American forces at Manila.

Thirteen hundred prisoners whom the Americans found confined in Manila are now being released as their cases are investigated. Many instances of fearful injustice have been discovered among these poor unfortunates, a number of whom have been incarcerated for nine years without a trial.

The transport St. Paul has arrived from the United States.

Gen. E. S. Otis has succeeded Gen. Merritt in command of the American land forces and the city of Manila.

## Anarchy Around Manila.

London, Aug. 31.—A dispatch to the Daily Telegraph from Manila, dated August 27, says: "All the outskirts of Manila are in a state of complete anarchy. The insurgents are hunting and pillaging the Spaniards, while the natives generally are sacking villages, robbing vehicles and stealing horses."

## MILITARY AND NAVY HONOR LOST.

Weyler Says Spain's Need Is a Military Dictatorship.

Madrid, Aug. 31.—Gen. Weyler is returning to politics in response to many appeals from Spain and from abroad, and it is said he will attend the sessions of the cortes and expound his views as to the causes of the war disasters.

The general intends to advocate a sweeping policy of rehabilitation of the government. He will propose a military dictatorship for the reorganization of the army and navy. Their honor, he remarked, has been lost, as well as the Antilles, owing solely to military deficiencies.

Gen. Weyler expressed the belief that the present cabinet will be succeeded by a military dictatorship or a Silvela ministry. He added that he did not desire a change in the form of government, but he pointed out that the Carlists have an excellent organization.

## Will Be Sent Home at Once.

Washington, Aug. 31.—The First Illinois Infantry will be sent direct to Chicago to be mustered out. They may be able to start from the detention camp at Montauk Point, Long Island, as early as next Monday. They will be taken in special trains to Chicago, and on arrival every man will be given a sixty-day furlough. At the end of the sixty days they will meet at their armory to undergo the physical examination and be mustered out of the service of the United States.

## Troops Reviewed in the Rain.

Camp Cuba Libre, Jacksonville, Fla., Aug. 31.—The Second division was reviewed Tuesday afternoon by Gen. Lee. A slow rain fell throughout the review and caused the troops and the 3,000 spectators a great deal of discomfort. The review was a success, however, the entire division being clothed in new khaki uniforms, which gave the men a very attractive appearance. The First Wisconsin and Fifth Iowa regiments did not turn out over half their strength owing to their large number of sick.

## Two Deaths at Santiago.

Washington, Aug. 31.—Gen. Lawton's bulletin of the health condition of the American forces in Santiago is as follows: "Santiago de Cuba, via Haiti, Aug. 31, 1898.—Adjutant-General U. S. Army, Washington: Total sick, 351; total fever, 313; total new cases fever, 7; returned to duty, 1; deaths, 12."

## Awaiting the President.

Camp Wilcox, Montauk Point, L. I., Aug. 31.—President McKinley will be at Camp Wilcox Saturday. Secretary of War Alger is here today. The president is coming to look at and talk with the brave men who fought under his direction. Secretary Alger's visit is in the line of his duty, and no special significance is attached to his visit.

## Glad They Are Going Home.

Lexington, Ky., Aug. 31.—When the Fifth Illinois was on dress parade Tuesday evening the order to muster out the regiment was officially promulgated and caused great rejoicing. The regiment will be ready to move to Springfield by Monday. Twenty-one men of the Fifth Illinois are in the city hospital, sixteen of them suffering with typhoid fever.

## DEATH RATE VERY LOW.

Col. Durbin, of the 161st Indiana regiment, while in Washington a few days ago, speaking of the sanitary condition of the camp at Jacksonville, said:

"The per cent. of loss from fever is less than in private life. The sanitary methods have all along been said to be the best of any camp in the country."

Col. Durbin's statement also confirms the many similar statements made of late, and does not corroborate the stories told by some of the sensational newspapers. People and newspapers who misrepresent the condition of the soldiers at the various camps do a cruel injustice to both the soldiers and the ones to whom the soldiers are dear.

Captain Lewis, of Company F, First regiment, Racine, was in Madison yesterday in conference with Governor Scofield. Captain Lewis talked freely about affairs at Jacksonville. He admitted that the hospitals at Jacksonville were overcrowded and that the accommodations for the sick were defective. He showed no desire to conceal conditions in the camp, but insisted that the conditions have been exaggerated in the letters from privates. He also made the plain statement that many of the men are themselves responsible for their condition, and would have been well had they taken care of themselves, and predicted that many would come down with sickness after they reached Camp Douglas.

Captain Wilde, of Milwaukee, in command of Company K, (Milwaukee) First Wisconsin Infantry, now at Jacksonville, writes The Sentinel that the hospital facilities at that camp are all that could be desired. The malarial fever, he says, is not dangerous, and yields readily. He does not favor the mustering out of the regiment.

The statement of all these officers tally and show that conditions at Jacksonville are not nearly as bad as they might be, and confirm the old saying that there are always two sides to a story.

## CAPT. ROGERS' ADVICE

Captain T. J. Rogers, of Beloit, in a letter to a Beloit friend, says that the relatives of the soldiers should write cheering letters to the boys and in conclusion says:

"Don't send any pitiful tales of woe, or paint pictures of hearts that are breaking over our prolonged absence, but send words of encouragement that will tend to make the boys of Co. E. strive to establish a record that will make them an honor to the city they represent and worthy of the confidence the government places in them."

At the session of the American Sabbath Tract society of the general conference of the Seventh-Day Baptists held at Milton, Rev. D. C. Bar-dolph, of Chicago, spoke of "The Sunday Newspaper," saying in part: "The Sunday newspaper has come to stay, its rapid growth is due to extra news for the leisure day, literary articles, large advertisements. Divine law does not forbid it and human law cannot. It is a symptom not a cause, Sunday is falling, because there is not a 'bible under it.'"

The Rose machine captured the delegates at the Milwaukee democratic caucuses in spite of the fact that Ryan, the Rose candidate, had admitted that Sawyer had the inside track.

The fight is on at Milwaukee today.

## GONE TO BRING HIS SON HOME

James Morton Goes to Jacksonville to Look After His Sick Son

James Morton, of Johnstown, left for Jacksonville today on receipt of a dispatch from that city announcing the severe illness of his son, who is a member of the First Wisconsin regiment. Young Morton is suffering from the prevailing complaint, typhoid fever with malarial symptoms. If the young soldier is able to endure the strain of travel he will be brought home, but if too weak for so much effort will be placed where he can have the best of care.

Dr. H. A. Palmer and son, Maitland expect to attend the Green County Fair at Monroe, Friday.

## CAMP LIFE AT JACKSONVILLE

## JANESVILLE BOYS ARE IN FAIR PHYSICAL CONDITION.

They Do Not All Relish the Idea of Coming Home, and Some Will Transfer to Regiments That Go to Cuba—Sickness Is Plentiful, But Not of a Serious Nature.

Camp Cuba Libre, Jacksonville, Fla., Aug. 28.—If Janesville is so full of rumors (juggling from papers received here during the past few days) what must it be here? Reports at home have us all dead or physical wrecks, or all right and feigning sick. We are supposed to be anxious to go home, and equally anxious to go to Cuba. Verily, I am sorry for one who tries to believe true all the reports that reach the ears.

Your correspondent returned last evening from a ten days' furlough spent at St. Augustine, on the sea, and found the members of Company A gazing with considerable satisfaction at the result of a hard past few days' work. Every tent is now the same in size, and every tent is elevated twenty inches from the ground. The entire line of the company street has been moved about twelve feet west, each tent, a 7x8, is supposed to contain four men. So many of the sick having been discharged, it really makes the street look natural.

The Khaki canvas uniforms have been issued. It is just a bit hard to tell the enlisted men from the officers. A small ornament, a touch more of blue at the neck and waist, are about the only distinguishing marks of an official's uniform.

The report that the First Wisconsin is to be mustered out, a report that has caused a deluge of telegrams, letters and newspaper reporters, has caused several men to toddle round to other regiments who may stand a better chance of going to Cuba, and attempting arrangements for transfers that may permit of their being also among those who shall help Uncle Sam establish a new government.

It is good to see so many of the faces back, that have been away from us so long—Privates Coryell, Prevas Bros., Linderud, Farmer and all. Of course, we cannot but miss the absent ones, those on furlough and those who have closed the Book of Life. But we hope that we have seen the worst of our trouble, and our future health may be assured.

Privates Shaw and Mitchell, who accompanied the bodies of Privates McNeil and Swartz to their homes, have both asked for a continuance of their furlough, as the doctors say it is typhoid. Mitchell is at his home, but Shaw, whose home is at Evansville, Wis., was just able to get to Marshall with his dead comrade's body, before having to give up.

Artificer Schmitt is acting as quartermaster sergeant during the absence of sergeant Hill on a furlough, and Assistant Quartermaster Flint is hospital.

Every member has now a complete outfit, including knapsacks, etc., and all broken rifles have been replaced or repaired.

It is reported that October will see the Seventh Army Corps moving toward Cuba. Whether the First Wisconsin will or will not be with them remains to be seen. Certainly nothing but the continued ill health of the command would interfere with present plans of their being sent. Most of the officers and many of the men are anxious to go; others feel that, if the war is finished and the country will soon return to civil life, it is wise that they get back to their business as soon as possible. The rest will do as the regiment does, so in fact, we will all do.

Much satisfaction is expressed to have Dr. Joe Whiting looking after the wants of the sick of this regiment again. Ever since being in Jacksonville he has been detailed for duty at the Division Hospital. Major Evans having gone north on a furlough, Lieut. Whiting is doing his work.

Private Fletcher, who has been with the ambulance corps, has again been transferred and will soon be doing duty in our regimental hospital and eating his meals with Co. A.

Home of the men have found the number of horse shoes required, driven in a couple of pegs and "quolts" are a pleasure of the company street. A sick report today, shows the following absent from the company. Some are in Division hospital, some convalescent at Patic Beach and some on furloughs.

## STOUGHTON WAS BEATEN

Visiting Base Ball Club Was Unmercifully Trounced By Y. M. C. A. Nine.

The Stoughton base ball club came to Janesville yesterday morning in high feather, expecting to gain an easy victory over the local Y. M. C. A. team. The boys departed for their homes in the evening sadder but wiser than when they came, for they realized with Burns that "The best laid schemes of mice and men, Gang all a-gley."

The game at Athletic Park was almost too one-sided to be interesting, and the Janesville boys, fond as they are of running, grew weary of making the circuit of the bases so often. The game was a succession of disappointments for the visitors. In the third inning they made a couple of runs, and with one more in the fifth they were obliged to be content. The home team started out with two runs, added one in the second and one in the fourth inning, and then proceeded to pile up the runs by wholesale till they had accumulated twenty-eight, when they quit, as the day was warm and the exercise somewhat fatiguing. The hitting and fielding of the home club was excellent. The following score tells the story of the game:

Janesville.....2 1 0 1 7 0 7 0 4-23  
Stoughton.....0 0 0 0 1 0 0 0 0-3  
Struck out—By Fisher, 6; by Jackson, 3; by Heitman, 2. Base on balls—Off Jackson, 9; off Fisher, 2. Home run—Carle. Two base hits—Carle, Kearney, R. Brown, Matthews, Pierce (2). Passed balls—McMasters, 2. Hit with pitched ball—E. Brown. Left on bases—Stoughton, 4; Janesville, 10. Umpire—C. J. Myhr. Time—2:30.

## Railroad Men Need Good Overalls...

For a month or more we have been showing the Lightning Jumper and Overall. Every railroad man and machinist who, sees the garments wants them.

Their value is recognized at once. The Overalls open at the front instead of at the side and the shoulder straps need never be unbuckled. They lift off and on the shoulders like the suspenders on a pair of trousers. The old style opening and closing at the side leave a gap of several inches for grease and dust to pour through onto the under garments; also the apron of the old style being solid the suspenders have to be attached and detached every time they are worn. The Lightning Overall and Jumper being so snugly closed up it is not necessary for the wearer to keep his top clothing on and thereby making them feel bungle-some. A supporter pulls through the strings on the waist bands of the drawers, and consequently keeps them from slipping down over the hips.

## All Garments Union Made And Bear the Label.

These Jumpers and Overalls were placed before the delegates of the Brotherhood Locomotive Engineers at their convention held in St. Louis, May 11th, 1898, and pronounced as being the most practical they had ever seen and seventy five per cent. of them purchased from one to six suits each for personal use. The Lightning Jumper and Overalls were adopted by the Wabash R'y Co. and their employees as being superior to all other makes. They beat the world as working garments for railroad men and machinists. ## PRELIMINARIES ARE SETTLED

GOV. SCOFIELD RECEIVES AD-  
VICES FROM WAR DEPT.

First Regiment Will Return Home Shortly—Will Be Mustered Out at Camp Douglas—Some of the Boys Will Re-enlist in Other Regiments.

Madison, Aug. 30.—Governor Scofield at last has received an answer from the war department to his numerous telegrams of inquiry regarding the date of the mustering out of the First regiment, and the disposal of the sick of the regiment. The dispatch of General Corbin, adjutant general of the army, received to day is as follows:

"Washington, D. C., Aug. 29.—Governor of Wisconsin, Madison, Wis.:—Replying to your telegram, Aug. 27, the First Wisconsin will be ordered to leave to day and must be out at expiration thereof. It will be probably five or six days before the regiment can be put on route. Sleeping car accommodations are furnished officers.

H. C. CORBIN, Adjutant General.

The following dispatch was received this afternoon from Col. Schadel:

Jacksonville, Fla., Aug. 30.—Gov. Scofield, Madison, Wis.: Number sick in regiment 238; number able to travel in tourist cars 100. This is the statement of Capt. Whiting, assistant surgeon.

Col. S. P. SCHADEL.

Acting on these telegrams Gov. Scofield telegraphed Gen. Corbin as follows:

Aug. 30.—Gen. H. C. Corbin Adjutant General, Washington, D. C. Col. Schadel, commanding First regiment, Wisconsin volunteers, at Jacksonville, informs me by telegram today that 158 men of his command are sick. I am informed by railway officials that the Florida Central & Peninsular railway is ready to furnish at once standard sleepers sufficient to transport sick of First regiment to Milwaukee. Will you authorize use of standard sleepers sufficient to transport sick of First regiment to Milwaukee? Will you authorize use of standard sleepers for sick and what arrangements will be made by your department for transportation of the sick. EDWARD SCOFIELD, Governor of Wisconsin.

In order that everything possible might be done for the comfort and well being of the sick soldiers information was also asked from Col. Schadel in the following telegram:

Aug. 30.—Col. S. P. Schadel, Commanding First Regiment Wisconsin Volunteers, Camp Cuba Libre, Jacksonville, Fla.: In the transportation of the sick of the First regiment to Wisconsin I am very anxious that every facility be possible for journey, in the way of care, medical attendance and supplies, nurses and food, be furnished. Advise me at once what care can be procured from the government and what is advisable to furnish in the way of additional surgeons, nurses, medical supplies and food. Also inform me at earliest possible moment of date regiment will leave Jacksonville. EDWARD SCOFIELD, Governor of Wisconsin.

Jacksonville, Fla., Aug. 30.—A telegram from Madison was received by Capt. Quentmyer this afternoon stating that the regiment would leave here in a few days and would be granted a thirty days' furlough at the expiration of which the men would be mustered out at Camp Douglas.

The news was received with enthusiasm by the enlisted men. The regiment participated in the division review this afternoon minus the regimental band, which now contains but nine men fit for duty. The regiment will not participate in the review of the Seventh army corps to be held tomorrow.

Orders for the movement of the regiment are known to be on the way from Washington, but have not as yet been received at camp headquarters.

Washington, Aug. 31.—Adj. Gen. Corbin said today that as soon as the First Wisconsin regiment reaches Camp Douglas the boys will be given a furlough for thirty days and at the end of that time disbanded. The regiment will leave for Wisconsin as quickly as transportation can be provided. The Second Wisconsin, which probably left Porto Rico today, will be kept in a detention camp for a short time after its arrival from Porto Rico, after which the boys will be furloughed for sixty days and then disbanded. The Second will fare better than some regiments that have preceded it to this country, as the detention camps are now in first class condition and provided in abundance with wholesome food and medical supplies which will be a great relief to the soldiers after their tedious journey on board transports up the coast.

## WED FOUR MONTHS THEN DIVORCED

ANOTHER LOCAL COUPLE MADE  
HAPPY.

Mrs. Jennie Caldwell Brought Action on the Grounds of Failure to Support—Defendant Came Here From Chicago and Is Well Known—His Whereabouts a Mystery.

Just four months ago at the Congregational church parsonage in this city Rev. Robert O. Nelson performed the ceremony that united as husband and wife Jennie E. Williams, of this city, and Louis W. Caldwell.

This morning in the circuit court of Rock county was heard the divorce action of Jennie E. Caldwell vs. Louis W. Caldwell.

There was no appearance on the part of the defendant, and on the grounds of failure to support the divorce was granted and the plaintiff left the court room a happy woman. At her own request she was allowed to resume her former name.

Brief Marital History

The interested parties to the action are both well known in this city and on account of their prominence and circumstances surrounding the case the affair is all the more interesting.

A few months ago the defendant came to Janesville in the interest of an acetylene gas plant firm whose headquarters are in Chicago. Being a handsome looking fellow and a man who had the appearance of being well up in business affairs, he soon made friends among the leading business men of the town.

His object here was to interest local capital and to place his gas plant in the stores and hotels of the town. In this respect he was successful only to a small degree. While here he formed the acquaintance of the plaintiff in the above action and after a few weeks, acquaintance they were married. Their married life was as short as their courtship.

Caldwell, after his marriage, found that business here was not what he expected it to be, so he at once made arrangements to look around for greener fields. He left suddenly on May 10 for the purpose of attending to outside matters. From that day until this his whereabouts have been a mystery both to his wife and friends here.

He left his bride here without providing for her with the necessities of life, and being tired of living thus he filed a bill for divorce soon after his disappearance.

A Story of Wrong.

When the case was called this morning Mrs. Caldwell was represented by the local legal firm of Sutherland & Nolan. She took the stand and gave the court the facts in her case, and told how she had been treated by a man whom she once thought was true to her.

The notice of action was served on the defendant by publication, but he made no appearance.

GAVE A FINE PERFORMANCE

"The Heart of Chicago" Was Successfully Produced Last Evening.

Despite the almost intolerable heat of last evening the opera house was well filled to witness the production of "The Heart of Chicago." The house looked clean and bright after the work of the renovators, and the atmosphere was not nearly as warm as many had anticipated.

The play was full of sensations from start to finish, and evoked the most enthusiastic applause. The scenery was certainly the most elaborate ever seen in Janesville, and excited much admiration. It was realistic besides, and residents of Chicago readily recognized the localities in which the scenes of the drama were located.

The actors all performed their parts well. They were well up in their respective roles, and left the prompter nothing to do. The songs with which the play was interspersed were excellently sung and much appreciated, especially by the gallery gods who are, after all, the best critics of a performance.

All the arrangements in the theater were perfect, and showed that the new manager, Peter L. Myers, is alive to the wants of the theater going public.

DIED AMONG STRANGERS

A Lad Expires On the Journey From North Carolina to Western Wisconsin.

James Lee Baldwin, a lad of fourteen years, died Monday night in a camp at the foot of South Main street. Last year his parents started from Nashville, Wis., for Winston, N. C., where they had determined to locate. They packed their earthly possessions in two wagons and began their journey overland. They reached their destination, but not being satisfied with the prospect decided to return. Their money had become exhausted, and their journey home was beset with many difficulties. In Tennessee three of the children were stricken with malaria, but recovered. James, however, never regained his strength and when the family arrived in Janesville he was taken with cramps that soon caused death.

The remains were taken in charge by Undertaker Kimball, by whom they were interred in Oak Hill cemetery.

MURDER WHILE ASLEEP

THOUGHT HE OWNED THE WORLD

But He Proved to Be Only a Reporter and Drunk At That

Thomas Barry, who claims that he was once a reporter for The New York World, struck town yesterday, and after sizing up the place started in to tell a crowd at the corner of Milwaukee and Main streets how it happened that he didn't buy out The World.

Barry was drunk and noisy, and could be heard a block away. Chief Hogan was there, and the result was that he waited Barry off to jail to the tune of a nearby handorgan that was straining itself in bringing forth, "All Drunks Look Alike to Me."

At the jail today the prisoner said that he had written several plays, and that the world would yet hear from him.

The pall bearers were Edgerton friends of deceased, and were: Messrs. Heddles, Hopkins, Bond, Marsden, Johnson and Flagg.

Railroad Men Appreciate the Lightning Overalls

Janesville railroad men and machinists have been quick to appreciate the lightning overalls, for which we are sole agent. The overalls possess marked improvements. By reason of the overall being stitched up at the sides and the continuous opening of the apron from the crotch to the top, the suspenders—after being pulled through the buckles to the proper adjustment—can be lifted on and off the shoulders like a pair of trousers, and need never to be unbuttoned. The old style opening and closing at the side leaves a gap of several inches for grease and dust to pour through onto the under garments; also the apron of the old style being solid the suspenders have to be attached and detached every time they are worn.

The jumper and overall being snugly closed up it is not necessary for the wearer to keep his top clothing on end thereby making them feel bunglesome, as a supporter pulls through the strings on the waistbands of the drawers, and consequently keeps them from slipping down over the hips.

## STANDINO AFFAIR AIKED IN COURT

INTERESTED SPECTATORS IN  
COURT ROOM.

Both Porter and Mackin Tell How It Happened—Local Physicians on the Stand to Testify of the Injury—Many Women Present During the Trial.

The long looked for and widely heralded case of the State of Wisconsin vs. Edgar Porter was called in the municipal court at 10 o'clock this morning. The complaining witness, James Mackin was on hand and for the first time was able to appear in court since he was stabbed on that Sunday night. Porter, who is a mere boy, has been confined in jail since his arrest and this morning walked into court in charge of Turnkey Brown. The prisoner, before leaving the jail brushed himself up so that he made a respectable appearance when he entered the court room. Numerous relatives and friends were on hand and they soon extended to him a hearty greeting.

The Examination Begun.

At 10 o'clock the case was called with Acting Judge L. E. Patton presiding. Attorney T. S. Nolan, of Sutherland & Nolan, appeared for the defendant, while District Attorney Jackson carried on the prosecution. Evidence of the part of the state opened the case, and Dr. James Gibson was the first witness called. His testimony was in relation to the condition that Mackin was in when he was discovered stabbed.

Thomas Dougherty was next called. He testified as to what he saw on the night of the fight, he being near when Mackin was cut.

James Mackin, Officer W. H. Appleby and William Donovan's testimony closed the evidence on the part of the state.

For the defendant George Irwin and Misses Rosa and Mable Morse were sworn.

# TWO NEW GROCERY ARTICLES!

Some new things are better than old ones. Some are not so good. We look carefully into new articles before we recommend them to replace the old ones. The two new grocery articles we are speaking of you have already become familiar with---their names at least.

## Freun's Wheat Wafers.

## I. X. L. (Cold Water) Starch.

We have pushed both of them quite extensively in the past few weeks, and with real marked success too. People have bought freely of them, praised them both generously. We knew of their merit to such an extent that we felt warranted in placing our personal guarantee back of them. The manufacturers give their word as to their worth, so there is no doubt but that they are good.

**I. X. L. Cold Water Starch** does not require boiling. It saves time and labor and is the best article of its kind on the market. We sell it 3 packages for 25c, whereas it usually retails at 10c package. Large purchases place us on a jobbing basis.

**Freun's Wheat Wafers** A perfectly digestible, nutritious breakfast food. The weakest stomach digests it. Children grow healthy and strong with it as a food. Grown people acquire more nerve force and general strength on Freun's Wheat Wafers. The indigestible part of the wheat kernel is removed. We sell it 10c package; usual retail price is 2 packages 25c. Our large purchase helps us to make the low price.

We never give our word to an article unless it has merit. You can rely on both of these articles. Give them a trial.

### INDIANA IN MOURNING

Body of Ex-Gov. Matthews Laid to Rest Today.

Clinton, Ind., Aug. 31.—The funeral of ex-Gov. Matthews took place at Hazel Bluff farm at 11:30 o'clock today.

The little city was thronged with people from all parts of the state, who came to pay a last tribute of love and respect to the state's chief executive.

Rev. Joseph E. Milburn of Indianapolis is away on his vacation and could not reach Clinton by the hour fixed for the funeral. This left Rev. E. W. Souders alone in conducting the funeral. There was no funeral procession, in the full sense of the term, as it was the ex-governor's repeated request that there be no pomp or display when the time came to consign his remains to the earth.

After the services at Hazel Bluff farm the body was brought to this city and laid in state for two hours. The family, immediate relatives and a few friends remained at Hazel Bluff farm until near time for the move to the cemetery. They then drove to the city and accompanied the remains to the cemetery, where there was another short service.

Miss Helen Matthews is completely prostrated, and there is much anxiety regarding the outcome of her prostration. Mrs. Matthews has recovered her strength.

In the hour of their bereavement the family is receiving an avalanche of telegrams from all directions expressing deepest sympathy and offering words of condolence.

### HAWAII ACCEPTS ANNEXATION.

President Dole's Formal Document Arrives at Washington.

Washington, Aug. 31.—The incoming Hawaiian mail brought to the state department the last report from United States Minister Sewall in his capacity of United States minister. The minister transmits to the department the formal acceptance by President Dole of the act of the United States congress annexing the islands to the United States.

Among the issues satisfactorily cleared, according to Mr. Sewall's report, was the claim of the Japanese government against Hawaii for the illegal detention and return to Japan of certain Japanese coolie laborers who were excluded under a Hawaiian immigration law framed after that of the United States Chinese-exclusion act. The amount of the claim was about \$75,000, and almost the last act of the expiring Hawaiian government was to discharge this obligation.

### War Assessment Not Legal.

Boston, Mass., Aug. 31.—Attorney-General Knowlton, in an opinion, declares that the 50-cent war assessment levied by the grand lodge of the American Order of United Workmen, in this state, is clearly illegal.

## LATE NEWS BY TELEGRAPH.

## THE DISARMAMENT SCHEME.

European Papers Comment on the Plan.

## DISPLAY MUCH SKEPTICISM.

Realization of the Idea of Universal Peace Is Considered to Be Far Off—Reason Given for the Issuance of the Czar's Note.

London, Aug. 31.—Nothing has been issued at St. Petersburg concerning the disarmament proposals, except the circular sent to the embassies by Count Muraviev, the foreign minister. Not the slightest hint has reached the embassies there regarding the practical proposals to be submitted to the projected conference.

A dispatch to the Daily Mail from St. Petersburg, dated Aug. 28, says the disarmament rescript is regarded as deciding the diplomatic feud between Count Muraviev, the foreign minister, and M. Witte, minister of finance, which has existed since the latter induced the czar to establish a gold standard for the currency. M. Witte told the czar if he countenanced Count Muraviev's aggressive provocative policy against Great Britain for another two years Russia would become bankrupt, as the withdrawals of gold from the treasury necessitated by the heavy purchase of munitions of war would deplete the hoard set aside for the maintenance of the new monetary standard.

The correspondent adds that he is assured that until Aug. 22 the czar was a strong supporter of Count Muraviev's policy, but in consequence of strong pressure from Copenhagen within the next twenty-four hours M. Witte prevailed upon him to publish the disarmament proposal, the idea of which has been in abeyance since Nicholas ascended the throne.

The publication of the rescript commits Russia to the policy of favoring the plans of M. Witte. Peace is now assured, at least until the completion of the Siberian railway, which was ever a pet project of the government.

Great Britain has not yet replied to the proposals, the government awaiting the return of Prime Minister Salisbury, who has long been interested in the disarmament question.

## FRENCH SPIRIT OF REVENGE.

It Has Already Defeated the Czar's Plan for Reduction of Armaments.

Paris, Aug. 31.—The Paris press still gives first place in importance to the czar's declaration for a reduction of armaments. The demand is stronger than the Alsace-Lorraine question he settled first before war shall cease. Pride, if nothing more, would prevent France, or any other similarly situated high-spirited nation, from appearing in a European peace congress on any other conditions. Thus the only result so far attained by the Russian proposal has been to awaken the dormant French spirit of revenge. The feeling is strong enough to defeat the czar's purpose, and it is not too much to say that his imperial dream already has vanished in thin air.

## How Austria Regards It.

Vienna, Aug. 31.—A New York World correspondent cables: A leading official in the foreign office said: "Austria and Hungary are disposed to welcome the czar's proposition as such a noble move deserves. At present the proposal is too vague to be taken into consideration. When the Russian government makes detailed propositions for the conference, stating what subjects are to be discussed, Austria will

come forward, helping to bring about the powers' great work."

## Would the Italy's Salvation.

Rome, Aug. 31.—A New York World correspondent cables: Prime Minister Pelloux, in speaking regarding the czar's peace proposal, expressed enthusiasm over the scheme, which "would mean the salvation of Italy, allowing her to devote her resources to agriculture and industry. Millions are squandered in armaments, and armed peace disagrees with modern civilization. Italy will support cordially the peace congress."

## Will Affect the Czar.

Paris, Aug. 31.—Le Temps says the czar's peace project forms a wide gulf between the two allied powers, France and Russia. It was not Germany, the paper says, that formulated the proposal. It was the czar, and it will affect the czar first of all, owing to French opposition, the intention of the scheme is not carried out.

## Scheme Is Not Feasible.

Berlin, Aug. 31.—The Cologne Gazette declares that at the French embassy in Berlin the czar's peace proposal was received with a feeling of stupefaction. No one connected with the embassy believes that the scheme is realizable.

## Heroes of the Iron Brigade.

Milwaukee, Wis., Aug. 31.—Gen. Edward S. Bragg was unanimously re-elected president of the association of survivors of the famous Iron brigade at the meeting of the association Tuesday. The election was by a rising vote and was marked by great enthusiasm on the part of eighty or ninety veterans present.

## NEAR A CLASH AT PANAMA.

Miners Finally Decide to Await Official Action.

Pana, Ill., Aug. 31.—There came near being a clash last night between the armed deputies guarding Panama mines and the strikers. The miners finally decided to await the action of State Mine Inspector Rutledge regarding closing down the mine. He will announce his decision today.

The grand jury has indicted James Palmer and Ed Jones, two non-union miners, who on August 18 shot into a large crowd of union coal miners who had assembled on the highway leading to the Springfield mine, severely wounding several of them. The men were indicted on three charges of attempted murder.

## Regency Ends in Holland.

The Hague, Aug. 31.—The queen-regent of Holland, in a proclamation just issued, upon the occasion of the end of her regency, her daughter Queen Wilhelmina coming of age today, expresses warm pleasure at seeing the whole nation "ranged joyously around the throne of the young queen," thanks God that her dearest wish has been heard, and, after thanking the people for their loving and faithful support of herself, invokes God's blessing upon the youthful sovereign and concludes: "May our country become great in everything in which a small nation can be great."

## HALF A MILLION IN ASHES.

Four Buildings Destroyed, and That Occupied by the American National Bank Badly Damaged—Loss Said to Be Covered by Insurance.

Nashville, Aug. 31.—Fire broke out at 2:10 o'clock Tuesday in the fifth floor of the large establishment of the Phillips-Buttort company, dealers in stoves and tinware, on College street, and spread rapidly, destroying the building and those occupied by A. J. Warren, furniture dealer; Phillips & Stevens, stoves and tinware, and the Davis Printing company. The building occupied by the American national bank was damaged by fire and water.

Warren, loss on stock, \$25,000; loss on building, \$32,000; Phillips & Stevens, loss on stock, \$25,000; American National bank, loss on building, \$20,000; Davis Printing company, loss on stock, \$4,000; J. ## New Boat for Miss Barton.

New York, Aug. 31.—A cablegram from Miss Clara Barton at Havana to the Central Cuban relief committee said she needed a steamship to use in the distribution of supplies, and Stephen E. Barton, chairman of the committee, has chartered the San Antonio from C. H. Mallory & Co. for two months, with the privilege of extending the time to six months. The San Antonio is a sister ship of the State of Texas, which was in Miss Barton's service during May, June and July. Her capacity is about 800 tons. She will be loaded with Cuban relief supplies and will sail, probably Thursday, in charge of Capt. Young.

## White Is Likely to Accept.

Cleveland, Ohio, Aug. 31.—Secretary of State Day and Justice White arrived in Cleveland last night and held a conference at the home of Col. Myron T. Herrick with President McKinley. The subject discussed was the peace commission. It was intimated by those who were in a position to know that Justice White will accept of place on the commission. The Justice left the city at 11:20. He said his call on the

president was official and the president was the proper person to make public the subjects discussed. Secretary Day is still in the city.

## Alger Will Not Talk of Milles.

Washington, Aug. 31.—Secretary Alger declined to discuss the Milles orders furnished by some one for newspaper publication. He offered no explanation for his silence, but intimated that it was a matter of propriety. In answer to a direct question he said that Gen. Milles had not been deposed. Such an order could be issued only by the president. If Gen. Milles were to be court-martialed for violations of the regulations of war he might be suspended from duty pending an investigation. So the matter stands.

## Neglect for the Dead.

Montauk Point, L. I., Aug. 31.—The manner of burying the dead as practiced at Camp Wikoff has sickened those who have seen it practiced. The bodies are first taken to the morgue, where they are placed in wooden boxes, which are put into an army wagon drawn by six mules in charge of a colored driver. The boxes are then lowered into the graves, which are not filled until the chaplain appears. One service is made to suffice for all the graves that happen to be unfilled.

## Must Give Stamped Receipt.

Washington, Aug. 31.—The attorney-general, in an opinion rendered Tuesday, holds that under the war-revenue act express companies must furnish, without extra charge, a stamped receipt for all packages transported for the government, and they are not exempted from furnishing the stamp on the plea that it would impair a contract for carrying such packages at a fixed price.

## THE TALK OF THE CITY

It's of Interest to Our Readers,

Because It Refers to Janesville People.

ville People.

It's astonishing how news will spread. From every ward and street we hear of our people talking about the workings of the Little Conqueror Merit and honorable methods receive their just praise. So many cases are cropping up that it is next to impossible to investigate them all, but we have taken a few in hand and have given them publicly for the benefit of our readers. Our representative obtained the following statement of facts in a personal interview. They are true in every particular and no stronger evidence can be obtained than home endorsement.

Mr. L. Lawrence, of 408 S. Franklin St., engineer at the Janesville Electric Light Co., says:

"Seven years ago I injured my back by falling through a bridge near Afton, into the Rock river. I was on a traction engine, its weight broke through, and the whole thing went into the stream. Since that time my back has ached by spells, sometimes very severely. If I caught cold it settled in my kidneys, and if I brought a strain on my back by lifting the result was a bad case of backache and sharp twinges of pain in my loins. I procured Doan's Kidney Pills at the Janesville Co's drug store and after I used them I was free from backache. I am in better health than at any time since falling through the bridge. It is for just such complaints as I suffered from that I can recommend Doan's Kidney Pills." Doan's Kidney Pills are for sale by all dealers. Price, 50 cents. Mailed by Foster-McBurrin Co., Buffalo, N. Y., sole agents for the U.S. Remember the name Doan's and take no other.

# W. F. HAYES, EYE SPECIALIST.

The proper fitting of eye-glasses requires careful preparation along two lines. There must be a thorough knowledge of the refractive conditions of the eye. There must also be a complete understanding of the construction of lenses for correcting error and remedying weakness. The optician should have the mechanical skill to properly adjust frames and lenses. He may be ever so capable in diagnosis, but if he is not skilled in the other and equally important branches of the profession his work is of little avail. W. F. Hayes, the eye specialist, has made himself proficient in every branch of refractive work; his experience of the past twelve years leaves no doubt as to his capabilities. Thousands of recommendations from people whom he has fitted to glasses during this time are in his possession and a great unwritten testimonial lies in the fact that former patients return a second and third time to be refitted. Mr. Hayes' connection with The Julius King Optical Co., of New York, (one of the most complete and thoroughly equipped optical manufacturing concerns in the country), gives him an advantage that but few opticians enjoy. A portion of his time is spent in the factory and grinding room, where from 300 to 375 pair of glasses are completed daily and every known refractive defect is corrected. AT F. C. COOK & CO.'S ON SATURDAY AND MONDAY OF EACH WEEK.

## WHAT SOME PEOPLE THINK OF MR. HAYES AS AN EYE EXPERT:

### Judge Bennett Pleased.

I take pleasure in recommending W. F. Hayes as a thorough and competent optician. He examined my eyes, and I am wearing glasses fitted by him. They are perfect in every way.  
JUDGE JOHN R. BENNETT.

### Mayor John Thoroughgood Says:

W. F. Hayes, the eye expert, at F. C. Cook & Co.'s, fitted myself, wife and daughters with glasses; we are more than pleased. They are satisfactory in every way, and I take pleasure in recommending him as being thoroughly competent.

### Register of Deeds, O. D. Rowe, Is Pleased.

I have been fitted several times to glasses but none have suited me as well as those I bought of W. F. Hayes, the eye expert. My wife was troubled with her eyes until he examined and fitted her to glasses and she is greatly pleased with results. I recommend him to people with eye troubles.

### Sheriff Acheson Talks About Glasses.

A testimonial from a man as conservative as Theodore L. Acheson, Sheriff of Rock county, is of value, not only to the man who receives it, but may be of great value to the public. Sheriff Acheson says of the glasses fitted to him a short time ago by W. F. Hayes, the expert optician, at F. C. Cook & Co.'s: "The glasses fitted to my eyes by Mr. Hayes are the most satisfactory of any I have yet worn. I am able to use my eyes more than has been my custom for some time—and yet I suffer no inconvenience."

### Rev. J. C. Koerner,

Pastor of St. Paul's church, says: Mr. W. F. Hayes, the expert optician, examined my eyes and fitted glasses to them. He understands his business and I have no hesitancy in recommending him as a thorough and reliable optician.  
REV. J. C. KOERNER.

### District Attorney W. A. Jackson

Recommends W. F. Hayes. He says: My eyes were examined and fitted to glasses by Mr. Hayes, perfectly. Having worn glasses the greater share of my life I most cheerfully recommend his work.

### R. W. Edden, M. D., Praises W. F. Hayes.

I have been greatly troubled, in reading, with my eyes, but since W. F. Hayes fitted me to glasses, the weakness has been entirely corrected and I recommend him as a thoroughly competent man.

### J. B. Whiting, Jr., M. D., Satisfied.

For some time my eyes caused me an uneasiness. I consulted W. F. Hayes, the eye expert, who made an examination and fitted me to glasses in a most satisfactory manner.

### What Dr. Rockwell, of Johnstown, Says:

W. F. Hayes fitted myself and wife to glasses and they have proven eminently satisfactory.

### A Few Lines From M. Montgomery, M. D., Clinton, Wis.

Mr. Hayes examined my eyes and corrected the trouble with glasses. I am pleased with his methods and recommend him.

### R. B. Anderson, M. D., Orfordville, Sends Cases.

I believe W. F. Hayes, the eye expert, to be a thoroughly competent optician. I have sent a number of cases to him and they are all well pleased with his work.

### Rev. W. F. Brown,

Formerly pastor of the Presbyterian church, of this city, says: Optician Hayes fitted myself and wife with "helps to read." They have proven very satisfactory and I cheerfully recommend Mr. Hayes as a reliable optician.  
REV. W. F. BROWN, Beloit, Wis.

### Physicians Recommend Mr. Hayes.

The following physicians of Janesville recommend W. F. Hayes, the eye expert, as a thorough and competent optician:

John F. Pember, M. D.  
J. W. St. John, M. D.  
W. H. Judd, M. D.  
James Mills, M. D.  
Dr. C. T. Pierce.

R. W. Edden, M. D.  
G. C. Chittenden, M. D.  
J. B. Whiting, Jr., M. D.  
W. H. Palmer, M. D.  
Dr. Wm. Horne.

## What Oculists Say of W. F. Hayes:

### Prominent Optical Expert.

H. R. Pestalozzi, one of Milwaukee's prominent eye specialists, at 280 Third street, says of W. F. Hayes, the eye expert: "I can recommend Mr. Hayes in the strongest possible manner as a thorough optician. His work gives evidence of large experience in every phase of eye treatment with glasses." Mr. Hayes is at F. C. Cook & Co.'s Mondays and Saturdays.

### Dr. A. E. Wilcox,

## Every Modern Appliance

Known to optical science is used by Mr. Hayes. Among the latest and most essential instruments is the REFRACTOMETER. By its use the most difficult, stubborn cases can be accurately fitted without the necessity of dopping the eyes with medicine to render them unnatural; the risk of permanent injury is entirely done away with. The RETINISCOPE and OPHTHALMOSCOPE are other modern methods employed by Mr. Hayes. The OPHTHALMOSCOPE detects any diseased condition of the eye, and in no case does Mr. Hayes prescribe glasses where treatment is necessary. People get the benefit of an experienced eye expert in Mr. Hayes; he makes optical work his study and his entire business and therefore understands all the requirements in glasses.

A few moments' talk with Mr. Hayes about your eyes may be the means of saving much pain and bringing relief to your sight.
